

Hi Dr. Burt!

Your work is truly appreciated by all of us, our families and the MS community at large. I am honored to have met you. One day this treatment will be available and I'll be able to tell people I met one of the pioneers of HSCT!

While I understand I am on hold right now for the study, I'm not giving up hope. I have faith our paths will cross again.

Best,

Ellie (Elizabeth)
