

Dear Dr. Burt,

How does one say Thank you for saving a life? Or giving one life back? Giving hope for a future to a long time single mother? How?

There will never be enough words to Thank you.

to my one and only Dr. Burt (OZ)
you are a man of few words but vast
knowledge - and your science is changing
lives and the world. I am forever
humbled, blessed and grateful you
said yes to me April 26th 2017 and
changed my outlook on my future.
You are brilliant. Thank you all.
With much love, Ali
