

Dr. Burt,

I can only imagine how many thousands of thank you cards that you have received over the years, and I am confident that through the course of your years of practice, you will have read millions. You are truly changing lives every day - with the domino effect of enhancing & touching so many other lives. I am sure you have truly heard it all - but your humility and groundedness speak volumes about you not only as a doctor, but as a person. W/ gratitude, Alissa
