

Dr. Burt,

Finding you was literally a blessing from the Lord above. Thank you for everything you have done to help people like me reclaim their life. I thank God EVERY DAY because this treatment literally saved my life. My children and husband have their fun, loving, HEALTHY, and FUNCTIONAL mother back. My patients (I am an RN) have their smart, hard working, HEALTHY, and FUNCTIONAL nurse back. Thank you just doesn't seem enough when it comes to what you have given me. May God continue to bless you in all your endeavors, and may you always remember how deeply loved you are by so many.

Betsy
