

Dr. Burt,

Words cannot describe our love and gratitude to you. I was given a second chance at life—a life full of hope and adventure! I can now keep up with my three children and enjoy life with my family. I have had so many improvements in the last three years, and I have you to thank! My life changed from the first moment we met. You gave me hope for a better life! Wherever the future takes you, I wish you all the best and hope you get some much deserved time to yourself! You will forever be our superhero!

Truly grateful and blessed,
Daniela
