

Dear Dr. Burt,

It is difficult to express gratitude to someone who has given our son his life back. The words seem inadequate but we are eternally grateful.

When we met you in October was losing
his battle to his disease. We were at the lowest point
in our lives. You were so gracious to allow
to be a part of your clinical trial. We feel
humbled and honored that you would allow him
this wonderful and amazing opportunity.

You and your entire staff demonstrated the
highest level of expertise and professionalism.
Everyone listened and answered all our questions
and met needs. You have set the bar
high and ~~it~~ shows in how you run your program
and care for your patients.

Thank you for the many years of
sacrifice and dedication to fight this horrible
disease for patients all over the world. May
your work continue to prosper and be richly
blessed.

Thank you from the bottom of our hearts
for the kindness and care we received.
We are forever grateful and will continue to
hold you in the highest regard and sing your
praises.

With grateful hearts,

Barry, Gwen
