

Dear Dr. Burt,

It is impossible to find words which adequately express the enormous debt of gratitude we owe to you and your staff.

Quite simply, your brilliance, determination and pioneering work in the field of HSCT has given Jordan her life back (Fingers & toes crossed!)

Ten years have passed since she was first diagnosed and as each year went by, we felt a growing sense of helplessness.

Thankfully, this has now been replaced by optimism and a future which is full of hope that the M.S. Monster has been destroyed once and for all.

Although the process of HSCT has seemed scary and overwhelming at times, the professionalism & expertise of your amazing team has inspired confidence and reassurance - especially with you at the helm.

We wish you every success in all your future work and want you to know that you will never be forgotten.

Thanks a million!

from
Jordan
