

Dr. Burt,

11/27/19

With the news of you taking some time off from your trial study, I wanted to write you & thank you for all that you have done. Because of you, I have my life back. A life free of CIPD. So many times before HSCT, I prayed for God to just take my life. Instead he sent me to you. Thank you so much. I'm forever grateful. - Jacey
