

Thank
you

Dr. Burt:

I am sure you have heard "Thank You" in every imaginable way. These words seem so trivial in relation to the work that you are doing. As I researched this study I found a man who had a burning desire to make a change and was willing to run through walls to make it happen. God has blessed you and I am glad you are sharing your blessing with me. Your example has inspired me to follow my heart and my blessings with others.

So here it is

Thank You!

Bryan
and
All

Thank you so much
