

Thank you for everything  
you have done to treat me.  
The HSCT did not just  
reset my immune system,  
you have restored HOPE. I  
am no longer afraid of an  
uncertain future. You have  
done an amazing thing by  
developing this medical treatment.

On behalf of myself and my  
family, THANK YOU, and good  
luck with the coming year.

As long as there  
are people like you,  
the world  
is a hopeful place,  
and each day is filled  
with special moments.

Merry Christmas

JOHN
