

Dr. Burt

I am so thankful for the revolutionary work you are all doing + that I get to be a part of it. I have wanted to do this since I seen a video of Dr. Burt in Dec 2016. Here we are May 2018 + I'm doing it I have already seen improvements + best of all stopped MS in its tracks + never having to take another

MS drug. I hope to be off all Rx meds in time as my body heals. Me + my family will always be grateful for you all + this procedure that will give me a future to look forward to. You gave us all back the hope we had lost. Now I can be an even better man

Thank you all so much Marie
