Dear Dr Burt,

You are warmly (although we have a heavy winter!) welcome to Sweden and Uppsala later this week. We look forward very much to meeting you and to discuss future cooperation concerning (the presumably most efficacious) MS treatment.

Your generosity to Dr Burman during his stay with you last year and your invitation for us to participate in the MIST trial have been very encouraging to us.

I do hope that this will fit into your program i Uppsala and that we will have a scientifically fruitful and nice coming together at the end of this week.

Sincerely yours and kind regards,

Jan Fagius, MD, PhD
