

## **Stem Cell Transplant Memories**

**October 27, 2014 - February 5, 2015**

**Chicago**

Don

- Thank You -  
for the Great Work  
You are doing!!

7/7/15

Dear Dr. Burt and Team,

I don't think I could say it any better than I did in the pages of this book -

"During my entire procedure I felt this amazing team of professionals were working together for just me, paying attention to every detail! I never worried - I knew I was covered!"

"I knew I was covered!"

"Truly caring above and beyond!"

Cathy and I can not say "thank-you" enough for all the care and concern offered to us - including the daily visits from the Team

I hope this book is a good reference that you might encourage anyone looking at HSCT to review if you feel it might help them in preparing for their treatment.

Please feel free to show it to anyone and also give them my contact info if they would like to speak to me or Cathy regarding our experience.

Cathy and I feel very blessed that we found you and your team and look forward to our continued follow up visits as we move ahead into the future!

I feel I am getting stronger day by day and we are very confident we will enjoy many wonderful years ahead!!

Sincerely,

Don
