Presidente do Conselho Deliberativo HCFMRP-USP

Congress of the United States
Washington, DC 20515

March 30, 2012

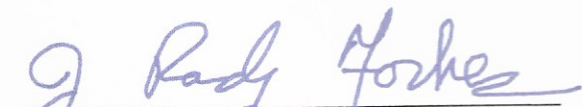

To the Colleagues of Dr. Julio Voltarelli:

Please accept our deepest condolences on the recent loss of Dr. Voltarelli. We know he will be deeply missed by all who knew him. We commemorate his distinguished contributions to the development of the first successful treatment for Type I Diabetes patients using their own adult stem cells, published in the Journal of the American Medical Association in 2007 and 2009. We remember with gratitude Dr. Voltarelli coming to the U.S. Congress in July 2007 to discuss his breakthrough for diabetes patients and medical science, in support of the Patients First Act.

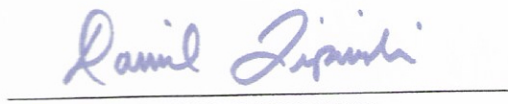

While this must be a difficult time for you, it is our hope that you will find comfort and peace in the memories of the many wonderful years you shared together, and in the rich legacy that he leaves behind.

You will remain in our thoughts and prayers.

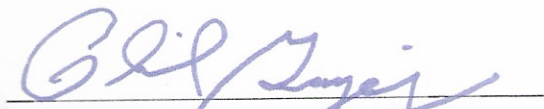

Sincerely,

J. RANDY FORBES
