

Hi Dr. Burt,

Hope all is well with you. I don't know if you remember me but I'm a PhD student. We met when you visited us in Uppsala a little while ago.

I saw Selma Blair's documentary last week when it came out and wanted to congratulate you. 🎉

It was so great to see you. And just the knowledge that the wonderful work you have done over the years has become even more visible is epic.

Wishing you all the best.

Regards,
Christina
